Hi Francesca and Lorna,

The attached version (which is also on the L: Drive) has Marti's grammar updates, fixed page numbers, and updated references. I wasn't entirely sure what to do with some of the references, so I made comments in the places where I was unsure. Otherwise, all links are up to date.

Cheers!
Emily

Hi there,

Here is the latest draft- it's also on the L: Drive. I have yet to go through and make all of Marti's edits on grammar. Her version is sitting on my desk if Emily wanted to go through – though the draft has changed dramatically.

Emily could also work on fixing the page numbers (they got all changed up- should be roman numerals through the table of contents and then they also started over in the appendices) and the formatting table of contents. References also need to be checked!

Thanks!

Lorna
